Backpack Performer

Backpack with four compartments

Backpack Performer lets you carry your notebook comfortably and securely thanks to the lockable notebook compartment that is cushioned with HDF (High Density Foam). DICOTA fully supports sustainable material. Therefore most of the notebook cases are made primarily from recycled PET. Recycled PET is a type of polyester that has a considerably lower impact on the environment compared to newly produced polyester.

A notebook stays in place in its compartment and there is also plenty of room in the spacious main compartment for documents and accessories. Cables can be stored in a compartment in the front pocket where you can also place accessories such as pens or mobile phone in the designated compartments. There is also a dedicated slot for tablet up to 10". To ensure that you keep going on your journey throughout the day, it has side pockets for umbrella or water bottle and a perfect fit rain cover.

Screen size:	14 - 14,1 inches
Art.No:	D30674
Weight:	1.0kg /2lbs,3.3 ounces
Material:	Recycled PET
